HIGH PRODUCTIVITY

HIGH CAPACITY FOR MAXIMUM PRODUCTIVITY

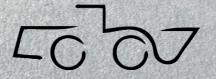

ARTICULATED LOW PROFILE DUMP TRUCK

Developed for small to medium scale underground operations, the MineTruck 1801XC is ideal for sections from 10 to 16 m³. The operator compartment is designed to offer the best comfort and ergonomy. The operator's seat faces forward and features ergonomic controls to improve working conditions.

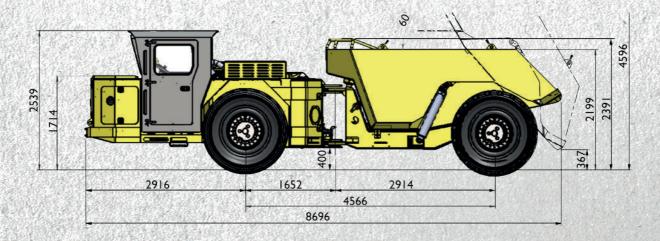

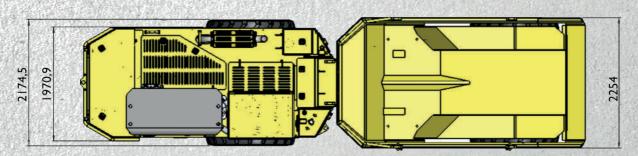

PERFECT MATCH Find the perfect match for your mining truck from our range of machines.

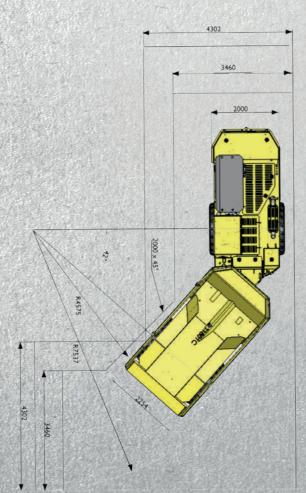

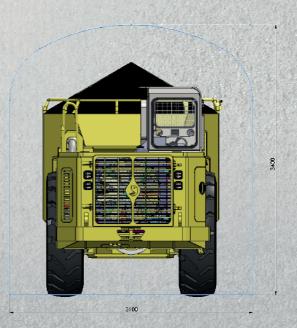

Loaders between 3 to 7 t with a dumping height of 2 meters or with an ejector bucket. Contact our Sales department

SPECIFICATIONS

Starting of the second s			the second	
CAPACITIES				
Tramming capacity				20 t
Dump box volume in dome				9,5 m³
LOADED VEHICLE SPEED O	N FLAT G	ROUND		
Forward or Reverse with 3% ro	olling resista	ince		
Gear	lst	2nd	3rd	4th
Speed in km/h	5,5	11	18	30
DISCHARGING				
Time			12	seconds
ENGINE				
Cummins tier 3 QSB6.7				
MSHA Power Rating @ 2200 r	om I 90kW	/260HP		
Max Torque @ 1,500 rpm 959	Nm			
Displacement 6.7L				
EXHAUST SYSTEM				
Catalytic purifier, exhaust silen	cer			
TRANSMISSION				
Dana R-32000 Series				
Fully Power Shift Transmission				
4 Speeds Forward, Reverse				
Gear shift with electrical contr	ol or autor	natic mod	e	
TORQUE CONVERTER				
Dana CL 323.1				
With automatic lock-up				
AXLES				
Dana I6D with standard differ	entials and	wheel-en	d planetai	ries
Posi-Stop brake in each wheel-	end with fo	orced coo	ling syster	n
BRAKE SYSTEM				
With both axle options				
Spring Applied Hydraulically Re	eleased in e	each whee	el end	
Parking and Emergency : same applied by push button	as service	in each wl	heel end,	manually
Auto Brake Apply in case of : Elect Failure	Hydr Press	Loss, Tra	nsm Press	; Loss,
WHEEL & TIRES				
16.00R24 deeplog type for min	ning applica	ition		
HYDRAULIC SYSTEM				
Cylinders Double Acting with C	Chrome Pla	ted Stems		
Steering Cylinders (x2)			Diameter	· I I 0mm
Hoist Cylinders (x2)				2 Stages
First stage Diameter				140 mm
Second stage Diameter				95 mm
Pumps : heavy duty gear type f	or steering	/dump/t	orake	
Filtration		Suctio	on Line : 2	5Micron

ELECTRICAL SYSTEM						
24 Volt Starting, 24 Volt Accessories						
Fully sealed electrical system with replaceable harnesses						
Canbus type System for easy monitoring, and control of each function						
LED type lights						
7 6						
FRAME						
Strong welded power frame with independant rubber						
Mounted cabin, well protection and accessible water						
Cooled Engine and radiator cooling system						
OPERATOR'S COMPARTMENT						
Open cabin, forward seated operator with ergonomical controls						
Orbitrol steering wheel						
Dashboard with all controls & indicator screen						
Operator seat with suspension & safety belt						
Built-in-cab armrest for high ergonomics and a perfect operator position						
Rubber mounted open cabin						
TANK CAPACITY						
Fuel 220 L						
Hydraulic Oil 210 L						
DUMP BOX						
Strong welded Box with angled corner for better protection, smooth interior for easy material unloading						
Rear tailgate type to avoid material spilling during tramming						
Optional rear mechanical tail gate to increase capacity and						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application OPTIONS						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application OPTIONS Stage V – Tier4 final engine VOLVO model TAD583VE						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application OPTIONS						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application OPTIONS Stage V – Tier4 final engine VOLVO model TAD583VE MSHA Approval						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application OPTIONS Stage V – Tier4 final engine VOLVO model TAD583VE MSHA Approval Power Rating 175 kW / 238 HP @ 2,200 rpm Max Torque 975 N.m @ 1,380 rpm Liquid cooled						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application OPTIONS Stage V – Tier4 final engine VOLVO model TAD583VE MSHA Approval Power Rating 175 kW / 238 HP @ 2,200 rpm Max Torque 975 N.m @ 1,380 rpm Liquid cooled DPF / SCR aftertreatment system						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application OPTIONS Stage V – Tier4 final engine VOLVO model TAD583VE MSHA Approval Power Rating 175 kW / 238 HP @ 2,200 rpm Max Torque 975 N.m @ 1,380 rpm Liquid cooled DPF / SCR aftertreatment system Engine displacement 5.1 L						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application OPTIONS Stage V – Tier4 final engine VOLVO model TAD583VE MSHA Approval Power Rating 175 kW / 238 HP @ 2,200 rpm Max Torque 975 N.m @ 1,380 rpm Liquid cooled DPF / SCR aftertreatment system Engine displacement 5.1 L Fire suppression system ANSUL						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application OPTIONS Stage V – Tier4 final engine VOLVO model TAD583VE MSHA Approval Power Rating 175 kW / 238 HP @ 2,200 rpm Max Torque 975 N.m @ 1,380 rpm Liquid cooled DPF / SCR aftertreatment system Engine displacement 5.1 L						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application OPTIONS Stage V – Tier4 final engine VOLVO model TAD583VE MSHA Approval Power Rating 175 kW / 238 HP @ 2,200 rpm Max Torque 975 N.m @ 1,380 rpm Liquid cooled DPF / SCR aftertreatment system Engine displacement 5.1 L Fire suppression system ANSUL Auto Lube system Enclosed pressurized cabin with AirCooled and Heater						
Optional rear mechanical tail gate to increase capacity and avoid material spillage on grade Optional telescopic DumpBox for unloading on low back height or backfilling application OPTIONS Stage V – Tier4 final engine VOLVO model TAD583VE MSHA Approval Power Rating 175 kW / 238 HP @ 2,200 rpm Max Torque 975 N.m @ 1,380 rpm Liquid cooled DPF / SCR aftertreatment system Engine displacement 5.1 L Fire suppression system ANSUL Auto Lube system Enclosed pressurized cabin with AirCooled and Heater Cement mixer drum (5 to 8 m ³)
